Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/533,240	Applicant(s) FOCKE ET AL.	
	Examiner CHRISTOPHER DEMEREE	Art Unit 3782	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 29 April 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-9 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-9 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 29 April 2005 is/are: a) ☒ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is unclear whether or not the box is claimed to be made of thin cardboard or not since the word "thin" is in parenthesis. Similarly, the word "upright" is in parenthesis in line 2 of the claim, rendering the scope of claim indefinite. Examiner also notes that claim language uses "and/or" in the recitation of the embossments on the edges of the container, which also renders the claims ambiguous as to what is actually being claimed.

Regarding claim 7, the base corner tabs and the end corner tabs are claimed to be configured with a smaller width, but there is no reference as to what the smaller width is relative to, therefore rendering the claim indefinite.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1-7 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by Brizzi (US 6755300 B2).

Regarding claims 1-3, 6 and 9, Brizzi teaches a hinge-lid box and the blank for making, made of cardboard or similar packaging material (Col 2 lines 35-38), in particular for cigarettes, comprising a box part (2), lid (4) and collar (see illustration below) and having longitudinal edges (13) and transverse edges (16) running crosswise thereto, characterized in that the longitudinal edges and/or transverse edges are configured by the deformation or embossing of the packaging material as an outwardly directed projection (see Fig. 3) having a round cross-section.

Fig.1

Regarding claims 4 and 5, Brizzi teaches a hinge-lid pack characterized in that all four upright longitudinal edges are uniformly configured as a projection or as a recess (Col 3 lines 54-59).

Regarding claim 7, Brizzi teaches a hinge-lid pack characterized in that for the configuration of the transverse edges as a projection or recess, corner tabs, namely base corner tabs (22) and/or end corner tabs (22) are configured with a smaller width such that the corner tabs can be positioned exclusively between the transverse edges (see Fig. 1) configured as a projection or recess. Examiner notes that the corner tabs are cut with a tapered shape that defines a width shorter than the side walls.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Brizzi.

Regarding claim 8, Brizzi discloses the claimed invention except for defining the radius of the projection to be between 1.5 and 4 mm. It would have been obvious to one having ordinary skill in the art at the time the invention was made to make the projection have a radius of 1.5 to 4 mm, since it has been held that discovering an optimum value of a result effective variable involves only routine skill in the art. In re Boesch, 617 F.2d 272, 205 USPQ 215 (CCPA 1980).

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Rigby (US 6276600 B1); Zeitel (US 4466536 A) and Smith (US 149889 A). These references disclose containers with substantially similar construction to that of the instant application.
